Summit Jazz Foundation teams with Broadband Video to stream live event
Swinging Jazz Concert heard live over the Internet

Englewood, CO – April 7, 2003 – The Summit Jazz Foundation has teamed with BroadbandVideo, Colorado’s premier streaming media services provider, to bring their monthly Swinging Jazz Concerts to listeners on the Internet.

The Summit Jazz Foundation produces the Swinging Jazz Concerts series bringing together internationally acclaimed artists who have earned reputations as dedicated exponents of traditional, mainstream and swing with an emphasis on collective improvisation. The Swinging Jazz Concerts are held at the Donald R. Seawell Grand Ballroom within the Denver Performing Arts Complex.

“This new partnership is an exciting way to expand what the Summit Jazz Foundation brings to Denver music lovers each month,” said Summit Jazz Board member Joyce Mirow. “These are some of the best jazz players in the world and we want to make sure that we can reach as many people as possible with their wonderful music.”

The event will be broadcast on April 12th beginning at 6:45 p.m. Log on to the Summit Jazz Foundation website at www.summitjazz.org to hear the live event as it happens.

About Summit Jazz Foundation

Celebrating its 25th anniversary, the Summit Jazz Foundation was created to foster awareness and appreciation of traditional jazz through public concert performances by internationally recognized artists. The Swinging Jazz Concert series runs for two nights each month during the Fall, Winter and Spring. An annual event, Summit Jazz, is held in September. For more info, visit www.summitjazz.org.

About BroadbandVideo

BroadbandVideo is a full service streaming media provider offering hosting, customized video players, management frameworks and in-house video encoding from a variety of formats. For more information and to view technology demos, please visit www.broadbandvideo.com.
