**The Internet Chamber of Commerce Partners with BroadbandVideo**  
ICC Web Site includes Streaming Video within Member Profiles

Englewood, CO – November 20, 2002 – BroadbandVideo, a full service streaming media provider, has partnered with the Internet Chamber of Commerce (ICC) to provide streaming video on their web site at [www.ICC.org](http://www.ICC.org).

The video clips are accessible from “Media Clips” located within the “What’s New” section on their web site. Currently, the video clips highlight several members who had attended the October 16<sup>th</sup> and October 29<sup>th</sup> ICC events. In the near future, all members will have the opportunity to describe their businesses in a short 30-second or less video clip that is linked directly from their business profile within the ICC member directory.

“We are excited about our partnership with BroadbandVideo,” stated Terry Freeman, Executive Director, ICC. “The potential for enhancing our site with streaming video is unlimited. We’re one of the first professional organizations in Colorado to add video clips to member profiles. It’s a tremendous value-add for our members, it greatly assists with the networking process and it also provides additional ways for our membership and sponsors to get their business message out there.”

**About The Internet Chamber of Commerce**

Founded in 1995, the Internet Chamber of Commerce is a nonprofit, volunteer-based professional organization, which helps the business, government and academic community maximize the opportunities of Internet technology through education, information resources and networking. We hold our events in the Denver, Colorado Metro area only. Visit us online at [www.ICC.org](http://www.ICC.org).

**About BroadbandVideo**

BroadBandVideo.com is a full service streaming media provider offering hosting, customized “players”, management frameworks and in-house video encoding from a variety of formats. For more information and to view technology demos, please visit us online at <http://www.broadbandvideo.com>.
